TECHNICAL SKILLS

HTML ● CSS ● React ● Ruby on Rails ● Node

I am familiar with many other frameworks and languages as well.

EDUCATION

Flatiron Bootcamp, Software Engineering   11/2019 - 7/2020

RELEVANT WORK EXPERIENCE

Freelance Web Developer, Remote   2/2018 - Present

- Engineer applications for people in less than a week to 4-8 weeks.
- Help people design and develop full stack Web applications for personal and commercial uses.
- Develop full stack e-commerce sites using React frontend and Ruby on Rails backend.

PROJECTS

Peeker — *HTML CSS Javascript React Redux*

Utilized React to build a Video Poker game. Used Rails backend to calculate hand values and odds. This is an ongoing project and is not stable enough for a preview quite yet.

City Info — *HTML CSS Javascript Rails React Redux*

Using APIs users can get information on weather, restaurants and upcoming events for the city of their choice.

PaddySnake — *HTML CSS Javascript Rails*

Using Javascript I created a game similar to the old cell phone game Snake. Keep your snake alive as long as possible while growing bigger by eating the magic apples. Also used a Rails backend to keep track of users and high scores.

Novel Ideas — *HTML CSS Javascript Rails*

Users can search for books then add them to their personal bookshelves. Then can see a list of top books and see summaries of books. And with a forum, users can discuss books or recommend books, or even leave book reviews if they like.

OTHER WORK EXPERIENCE

Amazon Fulfillment Center   10/2017 - 1/2019
- Pick, pack and ship customer orders.
- Worked in a large warehouse environment.
- Used pallet jacks, cherry pickers and forklifts.

Cook   6/1996 - 9/2017

Maxie's Carsonia Inn | Manatawny Manor Nursing Home | TGI Fridays
- Managed a team in a fast-paced, sometimes chaotic environment while keeping a level head.
- As a leader, guided new employees and managed a small team of cooks.
- As head of the kitchen, handled customer issues by relating to them and making things right for them.
